

New Orleans Chapter Newsletter

Society of Independent Professional Earth Scientists

Volume 13, Number 4

April 2012

Chairman's Column

Our meeting last month was very well attended with 46 members and guests enjoying an excellent presentation by **Larry Baria** on the Little Cedar Creek Field in Conecuh County, Alabama. As he pointed out, this is an active play, where most of the "stars" lined up in a favorable sequence.

This month, on April 17, one of our local members, **Roy Walther** will address the question of the "Reliability of Well Log Measurements". Accurate datum tops are one of the basic ingredients of subsurface mapping, so it will be interesting to hear Roy's findings. Hopefully, no prospects will be "wiped out"!

Unfortunately, a fairly significant number of you have not sent in spring dues. Dues are the fuel that keeps our chapter running, so if you attend, but have not paid, you are riding on other members' fare!

This is the last lunch meeting for the current session. Next month is the May evening event. We are looking for a "general interest" speaker, so any suggestions will be welcome.

Louis E. Lemarié
Co-Chairman

Tuesday, April 17th

Andrea's Restaurant—Metairie

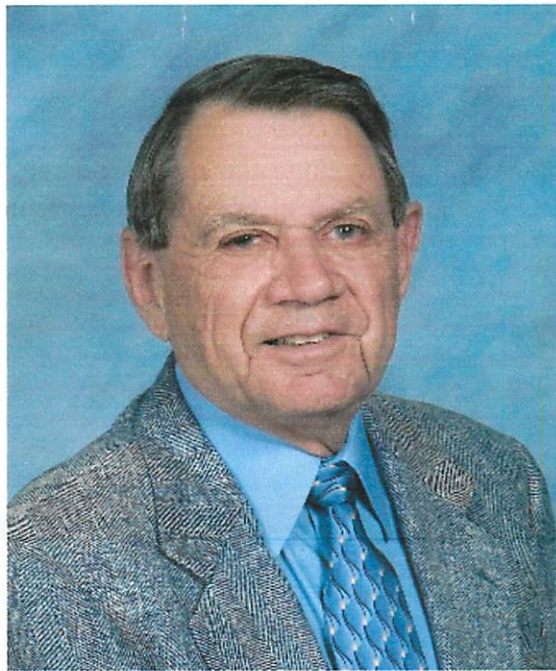

Social 11:30 am—lunch at 12:00 noon

Reservations: contact Carol St. Germain—504-267-3466

THIS MONTH ROY WALTHER

TALKS ABOUT

RELIABILITY OF WELL LOG MEASUREMENTS

Roy Walther graduated from Louisiana State University in 1954 with a B.S. and M.S. in geology. He joined Humble Oil & Refining Company in Houston and worked for them for 18 years in Texas, Mississippi, Alabama and Louisiana, moving to New Orleans in 1964. He became an Independent in 1972. Professional memberships include AAPG, DPA, SIPES, NOGS and HGS.

Содержание
Введение

Глава I

1.1. Общие сведения о предмете исследования
1.2. Цели и задачи исследования
1.3. Методология исследования

1.4. Обзор литературы
1.5. Теоретические основы исследования

Глава II

2.1. Описание объекта исследования
2.2. Анализ исходных данных
2.3. Разработка методики исследования
2.4. Результаты исследования

Глава III

3.1. Анализ полученных результатов
3.2. Сравнительный анализ
3.3. Выводы и рекомендации

3.4. Заключение

Список литературы

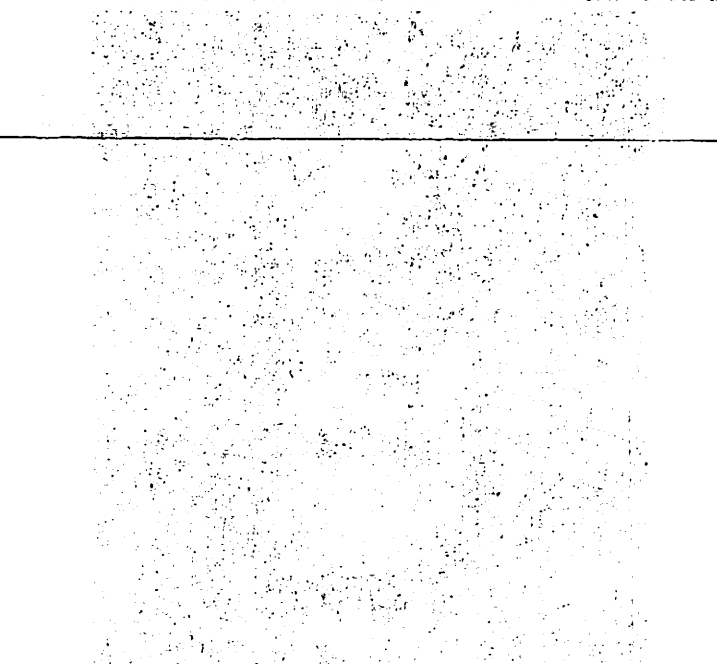

1. Иванов, И.И. Основы теории

2. Петров, П.П. Методы исследования

3. Сидоров, С.С. Анализ данных
