

Society of Independent Petroleum Earth Scientists
New Orleans Chapter
Types of Membership

SIPES, chartered in 1963 in Houston, Texas, has one of the strongest certification programs in the earth sciences. Members are certified by the [Board of Directors](#) for their professional experience, competence and ethics. SIPES has over 1,300 members located in 20 states. Their areas of expertise are worldwide in scope. Some bring about the drilling of oil and gas wells. Others are involved in different extractive industries of the earth's natural resources or in education.

NOTE: You must be one of the memberships below to attend a local chapter of SIPES.

1. Full Membership

- a. Requirements:
 - i. Science or engineering degree leading to a career in earth sciences
 - ii. 12 years of practice in the field of earth science. The years of experience required may be fulfilled by self-employment, as well as employment in industry, government or education as an earth scientist. Credit is given for degrees received from accredited universities.
 - iii. Members must be independent or self-employed with freedom of choice of clients and business associates.
 - iv. The sponsorship of three SIPES members is required. Applicants who reside outside of a SIPES chapter state, may use SIPES sponsors or other professionals who are familiar with the applicant's experience in the earth sciences.
- b. Reciprocity:
 - i. AAPG DPA (American Association of Petroleum Geologists – Division of Professional Affairs)
 - ii. SPEE (Society of Petroleum Evaluation Engineers)
 - iii. (note: sponsors are not required for DPA or SPEE members)
