

SIPES

"An Independents' Oil and Gas Association"

New Orleans Chapter's ~ Monthly Newsletter *Society of Independent Professional Earth Scientists*

Volume XXX

Number 1

Sept. 2005

Mission: To be the pre-eminent organization for furthering the professional and business interests of independent practitioners of the earth sciences.

Cancelled due to Hurricane Katrina

Tuesday Sept 20, 2005
at the Zea's Restaurant

From The Past Chairman:

I have been unable to call or email our chairman, so I am taking it upon myself to get a little information to my fellow members. We have been and will remain scattered to the wind due to Hurricane Katrina. This newsletter will only be on our website and also emailed. If you have a friend who did not receive this newsletter, please give him or her a copy.

The National SIPES organization has placed a link called "Messages and Information about SIPES Members in Hew Orleans and the Gulf Coast Area". There has also been several offers of help and temporary office space from our fellow members. This makes me feel very good about our friend in this organization. National has also cancelled the New Orleans convention and moved it to Dallas - who are going to hold it in Lake Tahoe. New Orleans is rescheduled for 2007.

I am using the rest of the news letter to give information about our members.

Bruce Bahlinger:

bbahlinger@wogc.com

I'm doing fine.....and am no longer working for Watson Energy. Richard has moved to Houston. Al & I are working together on a consulting job for Cox Operating Co. We have moved into a new office in Covington,

next to Dave Broadbridge. New address is 210 N. New Hampshire, Covington, La 70433. Phone is not yet hooked up. Cell phone works sometimes (985-630-9190).

Tony Carollo:

tcarollo@bellsouth.net

I'm back in my Metairie home 885-6829. I did not flood. Someone told me that on FEMA topo maps, I'm on the Causeway Ridge. Now I can feel upclass. I'm traveling back and forth with Dominion in Houston and Exxon in the Gulf. Got to go back to VR 164 For Exxon to finish a well. That's if Fresh Water City which is where the dock is, is still there. Good luck to everyone.

Anthony Catalanotto:

Geo-Draft, Inc.

(504) 836-2882 - Office

(504) 836-2877 - Fax

(504) 481-7291 - Cell

Our office did not have any damage, but the suites on the first floor had about a foot of water. We are up and operating out of our homes until the building is restored. We have full access to our files, plotters, digitizers and scanners.

Key Clarke: still working from home,

Roman Matranga:

Roman had water in both his house and his office.

Bob Murphy:

murphrg@cox.net
The Murphy's are OK in Grayton Beach, FL. I can be reached at this e-mail address and at 850-231-1238

Dave and Jeanne Phelps:

Dave and I are in Belton, TX at his parents, probably, until we can get back to New Orleans and see what the status of our home and office is. We have purchased a new computer, gotten SMT up; DSL access, and Dave can now working on our existing projects.

I am looking for additional work as my consulting with Century has been canceled until they can get their production back on and the New Orleans office going again ... so if any one needs any help please give me a call.

We can still be reached on our cell phones and email as below:

“Is Your Partner of First Choice”

For Drilling Prospects & Joint Ventures

Global Energy Resources is aggressively seeking joint venture programs, drilling prospects and re-entry opportunities in the United States and Canada, including offshore State and Federal waters. Both pressure and non-pressure environments are acceptable. We will participate in promoted programs on an operated and non-operated basis. Global Energy Resources will compensate generating geologists up to a 5% override and \$100,000 cash for each drilling prospect.

For 3-D Seismic Shoot Projects

Global Energy Resources is interested in participating in ground floor or promoted 3-D shoots both onshore and offshore in State and Federal waters.

For Property Acquisitions

Global Energy Resources is actively pursuing producing property packages where upside potential can be developed through re-completion, drilling and/or a 3-D seismic program.

Global Energy Brings to a Partnership

• Financial and Operational Strength • an experienced technical staff to evaluate and enhance your project • an aggressive and innovative approach that maximizes your project potential and gets deals done.

AND

As a “partner” we’ll share our opportunities with you.

Global Energy Resources’ focus is on the United States and Canada, including State and Federal waters, where we have extensive technical knowledge and management skills. We have the ability to operate, participate in, or compliment your company’s exploration/exploitation plan of development.

Global Energy Resources wants alliances and partnerships that combine Global’s strengths with those of other industry leaders. We have significantly increased our capital and human resource commitment, which allows us to take advantage of the opportunities as they arise.

We’ve put together multi-disciplined teams with the right talent and experience to achieve our target of capturing opportunities, increasing production and increasing value in new creative ways.

OUR STRENGTHS

Project Management Skills – We’ll use our “can do” attitude to put together a multi-disciplined team targeted to each project.

Financial Backing – We use our extensive resources to maximize project performance.

Extensive Regional Knowledge – Our employees typically have more than 15 years of industry experience.

Technical Skills – 1.) Extensive 3-D experience. 2.) Global is a proven prospect generator. 3.) Operational experience. 4.) Land experience.

Environmental and Safety – We’re committed to protecting the environment, the health and safety of our employees and the communities in which we work.

Global Energy Resources, L.L.C.

(Continued from page 4)

Ed Picou:

We are still in Birmingham. However, we may return to the city next weekend, but that's very "iffy." As for info to post, just put my cell phone number: **504-975-3096**. Looking towards returning to some normalcy soon.
epicou@bellsouth.net

Reese Pinney:

We have temporary office space in Baton Rouge. Mailing address is P. O. Box 84779; BR, LA 70884. Land line 225-408-5721. Cell is 504-400-0365. We plan to be back in our CBD office as soon as we can, which should be within the next couple of weeks. Yesterday I heard the building is showing signs of life. I hope each of you can get back to normal soon. Good luck to all,

Matt Riddiford:

mriddiford@aol.com
I am currently at 290 Huntersridge Road, Virginia 22602. McMoRan temporarily moved to Houston but did not include me on the staff. I am currently looking for a job and have you down as a reference. I hope there wasn't any damage done to your house. I have just returned from Slidell and was shocked at the destruction from Hurricane Katrina. Slidell was rebuilding at pretty good rate. Give me a call at 540-545-2097 or try my cell at 985-774-9012.

Rodney Rymer:

Family and I are doing fine. I will be moving to Lafayette with Murphy until everything in New Orleans is back to normal. You can reach me at © 985-290-8426 or email me at rrymer@bellsouth.net

Bob Sabate':

Took an apartment in Alexandria, will remain until my N.O house is straightened out (took 1.5' of Lake Pontchartrain). Have backers,

am looking for drilling deals, possibly production. Still have a few prospects to peddle interests in, as well. Cell# is 504-453-0584.

Monte Shalett:

monteshalett@netscape.net
We are in Birmingham and we think this is a great place for the short/medium term possibilities. Schools are great here if you want to consider that option.

John Silvernail:

My e-mail address is agnail@bellsouth.net. My cell phone number is 504-250-3989. My temporary mail address is P.O. Box 26663, Birmingham, Alabama 35260. We are at my daughter's house temporarily The cell phone and e-mail address are permanent unless we do something drastic as JJ has done.

Clint Wainwright:

baronpetr@msn.com
We are also relocating to Houston after being flooded out in Lakeview after our home survived the storm. Our home is about 1/2 mile east of the 17th Street Canal levee break. Always wanted a house boat on the lake, too; never thought it would be at our current address. I have a temporary office set in Houston and we're looking for a new home; both on the north side of town
